

UNCLASSIFIED

Hello,

I make a small amount of Handmade Soap

My suggestion for this submission is :

1. The Tier levels be re-assessed to accommodate small chemical users, (currently Im in a level that can produce up to Half a Million Dollars - No I dont make anywhere near that much) Change the lower tier to \$1 - \$500 or \$1 - \$1000
2. Reduce the fees associated with the tiers and become lower for the small users.
3. Stop this Monetary Extortion of Small Handmade Soap Manufacturers - and you might get more registrations - Your Goal is to monitor Chemical Use right? - Then dont scare honest people away with huge fees!!!!
