

Voluntary Call for Information on Chemicals (Gases) – downstream users of chemicals of potential security concern

The National Industrial Chemicals Notification and Assessment Scheme (NICNAS) published a voluntary call for information from introducers of certain chemicals which are of potential security concern in the *July 2010 Chemical Gazette* which can be accessed at:

http://www.nicnas.gov.au/Publications/Chemical_Gazette/Chemical_Gazette_July_2010.asp

This stage of the call for information is directed at resellers, formulators and end users of the 10 bulk chemicals listed below.

To assist with the recording of relevant information on these chemicals, NICNAS has developed survey templates which can be downloaded by clicking on the chemical name in the Table.

Chemical Name	CAS No.	Common Name
Arsine	7784-42-1	Arsenic trihydride
Bromine	7726-95-6	Dibromine
Carbon monoxide	630-08-0	Carbon oxide
Chlorine	7782-50-5	Dichlorine
Fluorine	7782-41-4	Difluorine
Hydrogen cyanide	74-90-8	Hydrocyanic acid
Hydrogen sulfide	7783-06-4	Sulfureted hydrogen
Nitric oxide	10102-43-9	Nitrogen oxide
Phosgene	75-44-5	Carbonic dichloride
Phosphine	7803-51-2	Hydrogen phosphide

Please send the requested information by **29 April 2011** to:

Maureen Hardy
Science Strategy & International Programs
NICNAS
GPO Box 58
Sydney NSW 2001

e-mail: maureen.hardy@nicnas.gov.au.

NICNAS is collating information on the 10 chemicals on behalf of the Australian Government Attorney General's Department (AGD). The information will primarily be considered to inform risk assessments on these chemicals of potential security concern.

For further information, please contact Mr Phillip Sharp by phone: (02) 8577 8820, fax: (02) 8577 8888 or e-mail: phillip.sharp@nicnas.gov.au.
