Applicants for PEC Assessment of Triclosan

The chemical phenol, 5-chloro-2-(2,4-dichlorophenoxy), commonly known as triclosan, was declared a Priority Existing Chemical (PEC) by the Minister for Health and Ageing on 6 May 2003. In accordance with the *Industrial Chemicals (Notification and Assessment) Act 1989*, as amended, all those who wish to manufacture or import triclosan during the period that it is a PEC must apply in writing using a PEC Application Form. Importers of products/mixtures containing triclosan must also apply for assessment. Persons other than importers or manufacturers may also apply. There are no application fees.

There is a penalty for manufacturing or importing a PEC without applying for assessment of the chemical.

The PEC application form (Form 1-PEC) can be found at http://www.nicnas.gov.au/Forms/Existing_Chemicals/Form1_PEC_PDF.pdf. If you wish to know more about the assessment or have any queries please contact Paul Harvey on (02) 8577 8892 or paul.harvey@nicnas.gov.au.

The following is a list of companies that have submitted an application for assessment of triclosan following its declaration as a PEC (current as of 8 February 2006).
