Subject: MY FINAL COMMENT/FLORIDA GOVERNOR, PROCLAIMS MCS AS EN ENVIRONMENTAL DISEASE, INDUCED BY GLOBAL ENVIRONMENTAL POLLUTION/Fw: From Christiane Tourtet B.A./URGENT/VERY IMPORTANT INFORMATIONS on MCS for your report

Hello again,

This is my final comment. I would like to let you know that Florida Governor Charlie Crist, has signed "Multiple Chemical Sensitivity (MCS) Awareness Month in Florida for MAY 2009. BEFORE signing the Proclamation, the proclamation is sent to the DOCTORS of the FLORIDA STATE DEPARTMENT OF HEALTH, WHO GAVE THEIR APPROVAL FOR THE MCS PROCLAMATION.

In his proclamation , the Governor, states that:

- MCS is a painful chronic condition of hypersensitivity reactions to the environment for which there is no cure.
- That people have developed MCS in Florida and throughout the world AS A RESULT OF GLOBAL ENVIRONMENTAL POLLUTION.
- That the health of the population is at RISK from CHEMICAL EXPOSURES that can lead to this ENVIRONMENTALLY INDUCED illness.
- That the symptoms of MCS include acute reactions to chemicals, food and medication, as well as severe neurological problems muscle and joint pains, memory and respiratory difficulties.

-That this illness may be preventable through the REDUCTION or AVOIDANCE of CHEMICALS in the AIR, WATER, FOOD, and in both INDOOR and OUTDOOR environments and by CONDUCTING FURTHER SCIENTIFIC RESEARCH.

For your your information, MCS is also included in the National Health Observance Calendar, form the Office of Disease Prevention and Health Promotion, U.S. Department of Health and services, as Multiple Chemical Sensitivity (MCS) Awareness Month 2009.

PLEASE READ my article in the National Press and view the MCS Proclamation from Florida Governor Charlie Crist.

Subject: URGENT/From Christiane Tourtet B.A.Re:Comments/Up-date for your MCS Draft Report

URGENT

My Comments:

While the hard work you have put into your draft report in regard to Multiple Chemical Sensitivity (MCS) is greatly appreciated, I am URGING you, to please get ACCURATE, RELIABLE, UP DATED information on Multiple Chemical Sensitivity (MCS) and CORRECT ACCORDINGLY AND URGENTLY YOUR REPORT!

I am urging you to read the accurate, reliable, and wonderful report on Multiple Chemical Sensitivity/Environmental Sensitivities from the CANADIAN GOVERNMENT. Read their Policy on Environmental Sensitivities at:

http://www.chrc-ccdp.ca/legislation_policies/policy_environ_politique-en.asp

and their report on Environmental Sensitivities at:

http://www.chrc-ccdp.ca/research_program_recherche/esensitivities_hypersensibilitee/page3-en.asp#t2

Up dated , reliable, information on Multiple Chemical Sensitivity (MCS):

Multiple Chemical Sensitivity(MCS) which affects an estimated 16% of the US population is a worldwide public health pandemic, increasing daily at an alarming rate, affecting millions of women, men, children,of all ages.USA, France, Canada, Germany , Spain, Italy, Denmark, Australia, Switzerland,India, Japan, China, England,...etc, just to name a few.

MCS is a devastating, agonizing chemically/environmentally induced disease,for which there is no cure at present time in populations that are GENETICALLY SUSCEPTIBLE, as evidenced by several scientific studies/results done in several countries.

There are plenty of scientific articles explaining the physiological mechanisms of MCS, and I strongly advise that you read, my article published in the American National Press"Multiple Chemical Sensitivity and Genetics" at:

<http://www.americanchronicle.com/articles/view/27147>

I also strongly recommend that you read the article "National Prevalence of Asthma and Chemical Hypersensitivity:An Examination of Potential Overlap, by stanley caress, PhD and AnnC.Steinemann, Phd at:

<http://www.nettally.com/prusty/National%20Prevalence.pdf>

For your information, the Governors of more than 43 States in the US have signed Multiple Multiple Chemical Sensitivity/Toxic Injury Proclamations for the Awareness of this Chemically induced Environmental illness, and in their Proclamations it states very clearly that Multiple Chemical Sensitivity (MCS) is an Environmental illness, induced/caused by exposures to toxic Chemicals in the environment.

Before any Governor signs an MCS Proclamation, the Proclamation goes to the Department of Health of respective States, and upon review, are approved by the Doctors of the States Departments of Health.

MCS in the US is officially recognized by many Federal Governmental Agencies,including the Social Security Administration, Department of Housing and Urban Development (HUD),The Americans with Disabilities Act (ADA) the US ACCESS-BOARD (FEDERAL AGENCY) devoted to accessibility of persons with Disabilities, and numerous governemental agencies and commissions.

It is important to note, that the Us- Access Board has adopted a policy of accommodations of a fragrance-free environment for persons disabled by Multiple Chemical Sensitivity (MCS) and has issued on-line an extensive guideline of Accomodation for persons disabled by Multiple Chemical Sensitivity at:

<http://www.access-board.gov/news/ieq.htm>

<http://ieq.nibs.org>

<http://www.access-board.gov/about/policies/fragrance.html>

Please visit our AWARD WINNING SITE: MCS HOMEPAGE, for the most accurate, reliable, up-dated information on MCS at:

<http://www.nettally.com/prusty/mcs.htm>

On our site you will be able to read many scientific articles about MCS including the articles I have mentioned above, read some of the MCS Proclamations signed by Governors, view the Guidelines for persons disabled by MCS from the US- Access Board, you can read and download the brochures I wrote on Multiple Chemical Sensitivity (MCS) and Multiple Chemical and Accommodations under the law ADA, by clicking on the small photo of myself, located on the front page of our site, and so much more.....

I believe that you will have the INTEGRITY, to correct your Draft Report on Multiple Chemical Sensitivity (MCS), and insert in your report the CORRECT, UP-DATED information which have been provided to you.

I thank you in advance, for your efforts and remain,

Sincerely Yours,

Christiane Tourtet B.A.
