Dear Dr Satya

Multiple Chemical Sensitivity - Draft Report

Thank you for your letter dated 24 February 2010 in regard to the revised draft report on Multiple Chemical Sensitivity.

I do not have any specific comments on the document. I consider that the report provides a very good appraisal of the contemporary literature and thinking on the topic, as well as identifying some important research needs. I support finalisation of the document for publication in the near future.

Yours sincerely

Sophie Dwyer
A/Executive Director, Health Protection Directorate
